## *The Blue Summit Report*

~ Client Action Network for Corporate Change ~  
*Blue Summit's "Inauguration" Ceremony*  
Tuesday, January 20<sup>th</sup> 2009

Next Tuesday Barack Obama will be sworn into office and will deliver his inaugural speech to the American people and to the world. With his promise for change still resonating in the hearts and minds of those inspired enough to hope for a better tomorrow, we'll be here in the office working hard for just that - change.

Our first Client Action Network (CAN) meeting will take place on that same historical day. CAN is being formed by a group of Blue Summit Financial Group clients interested in using their power as corporate stock owners. Their aim is to influence companies to incorporate more socially responsible and environmentally sustainable business practices.

This type of activism by shareholders has been increasingly successful at getting companies to shift policies over the last 30 years. Recent examples include Best Buy's electronics take-back program and corporate pressure being placed on the Uzbekistan government to end forced labor. Both of these accomplishments were in large part a result of the [As You Sow Foundation](#) out of San Francisco, who is entirely focused on these types of efforts. There are a number of different groups around the country utilizing the power of shareholder action to bring corporate change but CAN will be the first group of its kind located in San Diego.

If you are a current investor with Blue Summit Financial Group, you are welcome to join us for this inaugural event.
